

Buddy Sailing Policy

The decision to sail rests entirely with the Helm and Crew, who sail entirely at their own risk. Under appropriate circumstances, Buddy Sailing may be adopted. These circumstances are laid out in "Safety on the Water" notice.

Buddy sailing requires:

- **More than one boat on the water – no boat may ever sail alone.**
- **Safety Boat to be moored to pontoon, fuelled and ready to use.**
- **Each sailor (in the case of single-handed boats) or a sailor in each boat (for double handed boats) to be Appropriately Qualified.**
- **All boats to sail in the same area of the lake, so they are able to monitor each other closely.**

A fuelled Safety Boat must be on the water whenever sailing is taking place.
